

AutoMagic CD-R

The simple way to burn your own CDs?

Insert an AutoMagic CD-R into the CD recorder of your PC and a few clicks later you are done.

AutoMagic CD-R is a revolutionary new, all-in-one solution for recording, sharing and/or storing data. In addition to 680Mb of free space, each *AutoMagic CD-R* has a very simple, but effective, CD recording program resident on the disc. This program runs automatically as soon as *AutoMagic CD-R* is inserted into a compatible CD burner, providing step-by-step instructions on screen for recording photos, music files, "My Documents" and more...

Save Photos directly from your Camera

Connect your digital camera to your PC to save photos directly from your camera onto AutoMagic CD-R. Or choose from the image files already on your PC, which AutoMagic CD-R can identify in an instant. either way, just select, click and record.

Save Time, Effort and Money

There's no learning curve with *AutoMagic CD-R*. Just insert the disc, follow the on-screen instructions and within minutes you will have recorded the data you select onto the disc. Whether you're a novice or an expert, recording data with *AutoMagic CD-R* is so simple, it's magic! No need to buy expensive and complex CD burning software.

Share and Show your Favourite Pictures and Videos

Release your photos from the confines of your PC! just follow the step-by-step instructions to save them with *Automagic CD-R*, so that you can share them with friends and family and/or view them together on your PC or CD-R enabled TV.

Easy Backups

No time for a full backup, or are you away from your company's central server? *AutoMagic CD-R* is ideal for doing quick backups on the spot, thereby safeguarding your data.
